

Tukai Ghosh

Frontend Developer | React Developer | Full-Stack Developer

+91-9647894477 | tukaighosh753@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) Kolkata, West Bengal, India

SUMMARY

Frontend & Full-Stack Developer with hands-on experience building responsive web applications using React.js and developing scalable backend services with Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, role-based access control, and modern JavaScript technologies. Passionate about building secure, high-performance applications and delivering excellent user experiences.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, Redux Toolkit, Zustand, React Router, Context API, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Cloudinary, Vite, npm

WORK EXPERIENCE

Trainer | Trijal Excelled Foundation

Oct 2025 – Jan 2026

- Conducted programming and AI training sessions for **250+ students**, helping improve coding fundamentals, problem-solving abilities, and project development skills.
- Mentored students on programming fundamentals, AI concepts, NLP basics, modern AI tools, and practical project development.

Web Development Intern | CODSOFT

Sept 2024 – Oct 2024

- Developed responsive web applications, including a **personal portfolio website** and a **calculator application with enhanced functionality**, using HTML, CSS, and JavaScript.
- Implemented responsive layouts and interactive UI components to improve user experience.
- Applied modern web development practices to create clean, maintainable, and user-friendly interfaces.

PROJECTS

Full-Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB

2025 | [GitHub](#) | [Live Demo](#)

- Designed and developed a full-stack MERN eCommerce platform featuring JWT authentication, role-based access control, product management, shopping cart, and order processing.
- Built responsive and user-friendly interfaces using React, implementing product search, filtering, client-side routing, and an admin dashboard to enhance user experience.
- Developed RESTful APIs with Node.js, Express.js, and MongoDB, integrated Cloudinary for image management, and deployed the application on Vercel for scalable cloud hosting.

Video Streaming Platform Backend | JavaScript, Node.js, Express.js, MongoDB

2026 – Present | [GitHub](#)

- Engineered a secure backend system with JWT authentication, authorization, middleware-based access control, validation, and error handling to enhance application security and reliability.
- Designed RESTful APIs for video management, user interactions, and subscriptions, leveraging MongoDB aggregation pipelines and Cloudinary integration for scalable data and media handling.

Hospital Management System Backend | JavaScript, Node.js, Express.js, MongoDB 2026 - Present | [Github](#)

- Developed a Hospital Management System backend using Node.js, Express.js, and MongoDB, designing RESTful APIs for managing patients, doctors, appointments, and medical records with complete CRUD functionality.
- Implemented secure JWT-based authentication, role-based authorization, request validation, centralized error handling, and API testing using Postman to ensure application security, reliability, and performance.

CERTIFICATIONS

- Internet of Things (12 Weeks) – NPTEL, IIT Kharagpur.

ACHIEVEMENTS

- Built and deployed three full-stack/backend applications using the MERN stack, implementing JWT authentication, RESTful APIs, role-based access control, and Cloudinary integration.

EDUCATION

MCA – Master of Computer Applications | Dr. B.C. Roy Engineering College, Durgapur | 2025

B.Sc. – Computer Science | Bankura University | 2023
