Kolkata, West Bengal, India

SUMMARY

Frontend & Full-Stack Developer with hands-on experience building responsive web applications using React.js and developing scalable backend services with Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, role-based access control, and modern JavaScript technologies. Passionate about building secure, high-performance applications and delivering excellent user experiences.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, TypeScript, Redux Toolkit, Zustand, React Router, Context API, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Cloudinary, Vite, npm

WORK EXPERIENCE

Freelance Web Developer

Jul 2026 – Present

- Built a fully responsive business website [orbitix](#) using React.js, Vite, Tailwind CSS, and Framer Motion.
- Developed reusable components and optimized routing for improved maintainability and user experience.
- Achieved 90+ Lighthouse Performance and SEO scores through image optimization, lazy loading, and clean code practices.
- Implemented pricing, services, program roadmap, FAQ, and contact modules with modern UI animations.
- Integrated WhatsApp, Google Maps, and responsive navigation to improve customer accessibility across desktop and mobile devices.

Trainer | Trijal Excelled Foundation

Oct 2025 – Jan 2026

- Conducted programming and AI training sessions for **250+ students**, helping improve coding fundamentals, problem-solving abilities, and project development skills.
- Mentored students on programming fundamentals, AI concepts, NLP basics, modern AI tools, and practical project development.

PROJECTS

Full-Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB

2025 | [GitHub](#) | [Live Demo](#)

- Designed and developed a full-stack MERN eCommerce platform featuring JWT authentication, role-based access control, product management, shopping cart, and order processing.
- Built responsive and user-friendly interfaces using React, implementing product search, filtering, client-side routing, and an admin dashboard to enhance user experience.
- Developed RESTful APIs with Node.js, Express.js, and MongoDB, integrated Cloudinary for image management, and deployed the application on Vercel for scalable cloud hosting.

Video Streaming Platform Backend | JavaScript, Node.js, Express.js, MongoDB

2026 – Present | [GitHub](#)

- Engineered a secure backend system with JWT authentication, authorization, middleware-based access control, validation, and error handling to enhance application security and reliability.
- Designed RESTful APIs for video management, user interactions, and subscriptions, leveraging MongoDB aggregation pipelines and Cloudinary integration for scalable data and media handling.

Hospital Management System Backend | JavaScript, Node.js, Express.js, MongoDB

2026 - Present | [Github](#)

- Developed a Hospital Management System backend using Node.js, Express.js, and MongoDB, designing RESTful APIs for managing patients, doctors, appointments, and medical records with complete CRUD functionality.
- Implemented secure JWT-based authentication, role-based authorization, request validation, centralized error handling, and API testing using Postman to ensure application security, reliability, and performance

ACHIEVEMENTS

Developed and deployed production-ready MERN applications, including the Orbitix Technology website, achieving 90+ Lighthouse Performance and SEO scores.

EDUCATION

MCA – Master of Computer Applications | Dr. B.C. Roy Engineering College, Durgapur | 2023-25
